

Software compatibility

Fastmag Boutique

Developer

Fastmag Group

The first application that allows stores to register their transactions directly with a mobile device.

Fastmag Mobile Sales is the mobile version of Fastmag Boutique. You can find essential features of Fastmag Boutique on your mobile: sales, inventory consulting, product look-up, creation or recall of customer files ...

The mobile application is connected with Fastmag. The sales are immediately integrated into your database.

Mobile Application for sale

Sales Support

Accompany your customers throughout their purchase, and consult the available stocks, product details from Fastmag Mobile Sales.

More flexibility

Make your "nomadic" sales representatives more "flexible" by multiplying their presence on the sales area.

Multiply the POS

Equipped with a smartphone, all your sales representatives can realize sales.
